1. The rate sheet shows the tax rates paid by taxpayers in each of the 49 taxing districts in Crawford County.
2. Find your Taxing District on the left side of the chart.
3. The Total Tax Rate is equal to the sum of Township, School District, Joint Vocational School, Corporation, and County Rates.
4. The Total Tax Rate is reduced by the Reduction Factor to equal the Effective Rate.
5. The Reduction Factor is the amount of Tax Reduction caused by legislative action many years ago. This produces a rollback in tax rates to prevent single tax levies from producing more dollars than initially voted when taxes increase.
6. To calculate your tax, multiply the Effective Rate X 35% of your Market Value. Then you have to subtract any additional rollbacks (10% reduction, 2 1/2% principal-place-of-residence rollback, and Homestead exemption).
